

Invitation

2nd Collaborative Workshop

Research and Teaching on Agroforestry and Land Use Systems of the Future

24. November 2025

University of Freiburg

The Universities of Hohenheim and Freiburg want to jointly research land use systems of the future with greater national and international visibility and cooperate in teaching. A Memorandum of Understanding was signed in July 2024 to this end. The strong research profile in forestry, environmental and agricultural sciences, respectively, creates unique synergies, for example in the field of agroforestry, agri-voltaics and others.

Aim of the 2nd collaborative workshop is to further develop a joint strategy and structure for future cooperation, particularly in the fields of research, teaching and infrastructure.

Programme

12:15 – 12:45	Welcoming by officials & introduction round
12:45 – 13:15	Recap previous collaboration process and outcome of 1 st workshop (March 2025)
13:15 – 13:45	Coffee break
13:45 – 15:30	Thematic working groups (3 rounds) – e.g. agroforestry, agri-voltaics, forests, others)
15:30 – 16:00	Defining next steps & Wrap-up
16:00	End

We warmly invite you to come to Freiburg.

Registration with Christopher Morhart (christopher.morhart@wwd.uni-freiburg.de) and Michael Cormann michael.cormann@uni-hohenheim.de by **7th November 2025**.

For the introduction round, we ask you to prepare and bring 2-3 sentences on your research area and interest in the context of land use systems of the future and/or agroforestry.

In the workshop session we plan to form separate working groups to improve collaboration efforts.

The journey from Hohenheim will be made by car pooling. These will be coordinated by Michael Cormann michael.cormann@uni-hohenheim.de. If required, please contact him directly.

We look forward to lively participation and a successful meeting!

Prof. Dr. Stefan Rensing

Prorectorate for Research – Freiburg University

&

Prof. Dr. Thomas Seifert

Chair of Forest Growth and Dendroecology– Freiburg University

&

Prof. Dr. Claudia Bieling

Institute of Social Sciences in Agriculture, Societal Transition and Agriculture - University of Hohenheim
